

Welcome to collaborate.green

About collaborate.green

Collaborate.green is an initiative of IUCN NL. It is an online collaboration platform to facilitate the collaboration with our network of partners, member organizations and staff. It is the place to be to collaborate on joint programs and projects, to discuss themes related to nature conservation and to benefit from sharing knowledge with professionals.

Logged-in users with access rights can create, share and discuss their files, ideas, minutes and projects with other members of the IUCN NL network.

[Log in](#) to collaborate.green to get started.

If you have questions related to the use of collaborate.green, please contact Doris Schyns (doris.schyns@iucn.nl).

About IUCN NL

Nature is our foundation. As long as we keep nature healthy, we can enjoy its benefits. That's why IUCN NL works towards **a just world that values and conserves nature.**

IUCN NL is the Dutch national committee of the International Union for Conservation of Nature, the world's largest and most diverse environmental network. **Our strength lies in our network.** Every day IUCN NL works together with partner organizations, both in the Netherlands and abroad. By joining forces we are able to reach our goals.
